2. <http://www.thinkbigqatar.com/shows/news/safety-design-in-buildings-conference>

The screenshot displays a Vimeo video player interface. At the top, the Think Big Qatar (TBQ) logo is visible with the tagline "Focusing on People & Business" and navigation links for HOME, ABOUT US, TBQ SHOWS, and BUSINESS DIRECTORY. Below the logo is the Vimeo player header with the "vimeo" logo, a "Join" button, and links for "Log in", "Create", "Watch", and "Upload". A search bar is also present. The main video content is split into two segments. The first segment shows a man in a dark suit and glasses being interviewed by a woman with blonde hair holding a blue microphone with the TBQ logo. The second segment shows an audience of men and women seated at round tables with white tablecloths in a conference setting. The video player includes a progress bar, a play/pause button, and a "HD" indicator.

### Trinity Qatar showcases new products at Doha conference

BY OUR BUSINESS BUREAU

**DOHA:** Trinity Qatar, the contracting arm of Dubai based engineering conglomerate Trinity Holdings, showcased its range of products and services related to building safety and maintenance on the sidelines of Safety Design in Buildings conference held on Monday in Doha, Qatar.

Speaking at the conference, Allan Cumello, an Executive Director at Trinity, emphasised the importance of adherence to building standards and design criteria with particular reference to safe paths of egress. He highlighted the importance of having stairwells protected with certified fire resistant doors and well designed stair pressurisation, exit lighting and egress illumination installed in buildings.

Panellists at the conference discuss 'The Next Level of Safety Specification Standards'.

## Solutions for life safety in buildings showcased at Safety Design in Buildings Conference

on Tuesday, 19 February 2013. Posted in Press Releases

0.0/5 rating (0 votes)

DOHA: Trinity Qatar, the contracting arm of Dubai based engineering conglomerate Trinity Holdings, showcased its range of products and services related to building safety and maintenance on the sideline of Safety Design in Buildings conference held on Monday, Feb. 18, at Renaissance Doha City Center Hotel, in Qatar.

In the wake of increased fire and safety accidents in Qatar and the UAE, the conference provided a platform for engineers, manufacturers, fire consultants, architects, regulators and related professionals of the construction and contracting industry to debate issues surrounding fire safety strategies, building codes and standards.

Speaking at the conference, Mr. Allan Comello, an Executive Director at Trinity, emphasized the importance of adherence to building standards and design criteria with particular reference to safe paths of egress. He highlighted the importance of having stairwells protected with certified fire resistant doors and well designed stair pressurization, exit lighting and egress illumination installed in buildings. "HVAC system for the buildings should be adequately fitted with smoke detectors to shut off fresh air intakes thus obstructing the flow of oxygen to the affected area. The penetrations for all services within stairwells and fire compartments should be adequately protected with fire-stop systems," Mr. Allan added.

As one of the key sponsors of the conference, Trinity Qatar called upon those related to the industry to participate in such forums for knowledge-sharing and implementation of global best practices in the region. Safety Design in Buildings conference, organized by Sesam Business Consultants, featured presentations and panel discussions on key topics such as 'Developing Fire Strategies', 'Perimeter Joint Fire Protection in Curtain Walls', 'Specifications and Value Engineering' and 'Tower Smoke Management'. The conference which is part of a regional campaign to raise awareness on life safety in buildings is supported by the American Institute of Architects Middle East, Society of Façade Engineering (SFE), Abu Dhabi Department of Municipal Affairs, Intersec, Schott Glass and White Aluminium Enterprises among others.
